Video Playbook

Use One Software Program to Create Promethean Board Video Playbooks, Team Websites, and On-Line Scouting Report Presentations

The ActiveCoach Video Playbook and scouting report software from Quik Scout Technologies provides coaches with the software tools necessary to create multimedia presentations that will help athletes from all sports learn and retain information.

ActiveCoach allows coaches to take advantage of Promethean's award-winning ActivInspire software. Once coaches complete a scouting report or video playbook they can save their reports as ActivInspire Flipchart files. When using a Promethean Board coaches can take full advantage of every Promethean Board instructional feature. Scouting reports or video playbooks created for the Promethean Board can also be uploaded to custom team websites and reviewed by players and coaches on-line. The same reports can even be loaded on to a player's personal computer.
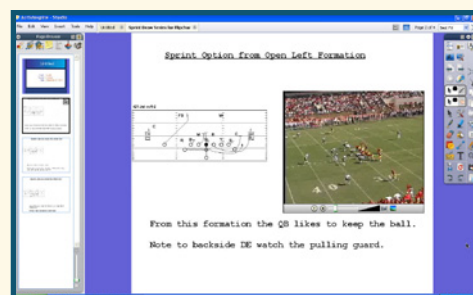

What is an ActiveCoach Video Playbook?

ActiveCoach Video Playbooks are created by coaches using ActiveCoach software. These interactive video playbook and report tutorials, used by coaches and players, will enhance retention and learning. Each playbook or report presentation page can display a combination of text, graphics, and video clips. After video playbooks or scouting reports have been created they can be converted into flipchart files and downloaded to each player's personal computer.

ActiveCoach Flipchart File

ActiveCoach Playbooks and Reports can be reviewed by players at home or at school

How does the ActiveCoach Video Playbook Work?

After installing Promethean's **FREE** ActivInspire Personal Edition to their personal computers players can quickly access and download the ActiveCoach Flipchart file from the team website. Once the ActiveCoach Flipchart file has been downloaded players can open and review their playbook or pre-game scouting reports including video examples.

Coaches can even upload the same scouting reports and video playbooks to custom team websites to be reviewed by players and coaches on-line.
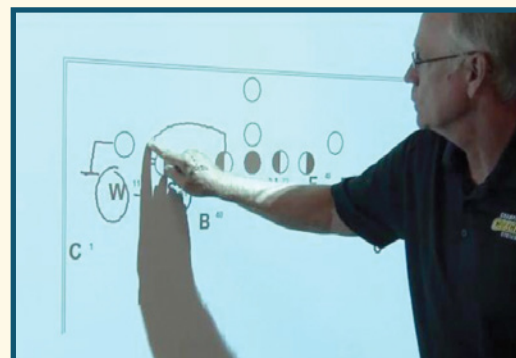

Interactive Whiteboard Presentations

The same reports can even be reviewed on Promethean Boards during team meetings. Coaches can take full advantage of pen, touch and resizing features while making their presentations.

Presentation Praise

Bruce Cobleigh, Harrison High School coach and football clinic speaker, had this to say…

"I could never create playbooks like this before. I would have to wait until the end of a meeting to show my video clips. With ActiveCoach Video Playbooks I can present everything in its proper sequence and by including video clips with the playbook's text and graphics."
