

Quik Scout Technologies, Inc.
FOR IMMEDIATE RELEASE

QuikScout 2010

Interactive White Board Scouting, Presentation and Web Based Learning System

November 20, 2010

Erie, PA –

Quik Scout Technologies is pleased to announce the release of [QuikScout 2010](#). [Quik Scout 2010](#) becomes the first dedicated scouting and coaches' software product that enables coaches to take full advantage of interactive white board presentation and popular Student Response Technology. At the same time [QuikScout 2010](#) offers coaches a powerful web option for those who wish to produce secure web based scouting reports. According to CEO and founder Randy Bukowski, [QuikScout 2010](#) goes beyond traditional scouting systems allowing coaches and athletes to:

- Improve existing scouting reports by allowing the video clips from existing editing systems to be integrated into [QuikScout 2010's](#) video library and take full advantage of Interactive White Board Technology.
- Make report presentations that allow coaches to resize play diagrams, notes and video clips with a single touch.
- Upload new or modified scouting reports, complete with video clips, pictures, diagrams and notes to a secure team website.
- Access a secure team website to review the latest scouting report from home.
- Create and publish senior portfolios electronically to flash drives or to the team's secure website.
- Use popular Student Response Technology to identify favorite plays during team video sessions. Identified plays can be saved within [QuikScout 2010](#) and later be edited and included in player portfolios.

[QuikScout 2010](#) makes all of this possible. With [QuikScout 2010](#), coaches can also assist players with organizing and maintaining a media collection of their high school playing careers. Using [QuikScout 2010](#), athletes can publish their senior portfolios to a Flash Drive or to the team's secure website.

Head Coach Randy Pippin, a popular Glazier Clinic presenter and Director of Glazier Football Clinics had this to say about [QuikScout 2010](#). "Simply put, [QuikScout 2010](#) appears to be the first complete Scouting and Training Package that integrates the vital football teaching components (i.e. Video, Diagrams and text narratives) in to a coach and player friendly, high tech yet simple program. With [QuikScout 2010's](#) incredible array of features, it's destined to become standard software for every high school and college football program that is serious about gaining a scouting and teaching advantage on their opponents."

Highly respected football coach Bruce Cobleigh of Harrison High School used [QuikScout 2010](#) to create his clinic presentations during the 2010 Glazier Football Clinics. This is what Coach Cobleigh had to say. "I could never create presentations like this before. I would have to keep my text and graphics separate. I would have to wait until the end of my presentation to show my video clips. With [QuikScout 2010](#) I can present everything in its proper sequence."

Please email or call Quik Scout Technologies to schedule a demonstration.
