# **QuikScout** Football

Coaches can catalog, organize, edit, and manage game or training videos with **OuikScout Football**. Whether vou're scouting an opponent, making a highlight DVD for a team or player, creating a video

yearbook or training athletes, QuikScout Football will benefit coaches and players.

- Customize QuikScout Football using your own terminology for faster sorting and editing
- Organize video clips based upon your own criteria such as 21 trap plays, all run plays, left hash plays or player and team highlights
- Print scouting reports by situations you define including down and distance, field zone, play, formation and more
- Burn video clips to VHS or DVDs
- · Email video clips to players and coaches or upload to websites

#### Give Your Team a Competitive Advantage With a **TeachSmart Football Scouting & Presentation System**

"I have used a lot of *editing and scouting* programs for football and each have their benefits.

*However, QuikScout* Football remains the easiest for coaches to use especially during the season when time is limited."

John Black Head Football Coach Valley Center High School Valley Center, Kansas

# **QuikScout Modules**

**Gall** 800.251.4077 to schedule an on-line demo!

All QuikScout Modules allow coaches to mix and match features specific to their needs and budgets. Each Module allows coaches to use their own terminology while QuikScout custom data entry design features make for an affordable, easy to use video editing solution. Depending on your needs and/or budget, you can choose additional software modules.

#### Clipboard / Filmroom Module - \$495

With the Clipboard and Filmroom, making tapes is a thing of the past. Simply connect to a projector, bring in your players and present your film sessions from your computer.

Each play is represented by a thumbnail. You can view each play by clicking the thumbnail shown on the left side. You can also use the VCR like controls to fast forward, rewind or play each play. You can even run the play in slow motion or step through it one frame at a time.

## Live Capture Module - \$495

Whether you're live at the game or recording films that you've exchanged with other teams, Live Capture allows you to record and scout your video at the same time.

If you're live at the game, you can get edits as soon as the game is done. If you're trading tapes, you can cut your time in half by capturing and scouting at the same time.

### QuikScout Defense Module (Football Only) - \$875

QuikScout Defense allows you to scout your opponents' defense. Customize QuikScout Defense using your terminology to get printed reports & video cutups for preparing your players for your next game.

Use QuikScout Defense to find specific defensive fronts, coverages, team or individual highlights.

## **OuikScout inMotion - \$195**

QuikScout inMotion provides visual feedback for young athletes who want to master proper technique. Whether it's mastering the six BFS core lifts, throwing a football or preparing to kick a game winning field goal, you can break down athletic movement frame-by-frame for immediate review and analysis.

*II* For the past five years the Marion-Franklin Red Devils have won their league and advanced to the Ohio High School Football Playoffs.

The bad news: each of those years we lost in the first round. As head coach I was looking for a football program that would put us over the hump. After researching many different editing programs, we purchased QuikScout Football.

We used this program for cut ups, self-scouting and opponent scouting. QuikScout Football made creating and viewing film sessions with the players easier than ever before.

The good news: this year we won our first playoff game in school history. I give a lot of credit to our preparation for this game to QuikScout.

#### Brian Haffele

Head Football Coach Marion-Franklin High School Columbus, Ohio

*II* QuikScout has been a tremendous asset to our football program. As our first step towards video editing, we are able to cut, break down, and capture our film (as well as our opponents).

We couldn't have asked for a better product that is easy to use and is so soundly supported by the technical assistance provided by the folks at Quik Scout. We are convinced that this software will provide a huge advantage for our program.

Assistant Athletic Director **Elder High School** Cincinnati, Ohio

## A new era of Game Preparation and **Scouting has Arrived!** QuikScout Design and QuikScout Player

A new era of game preparation has arrived! Coaches can now verify that their players understand the scouting report. Using QuikScout Design, coaches can create an interactive video scouting report.

**Presorted Standard** Cleveland, OH U.S. Postage Permit 1575 PAID

Regardless of the editing system, QuikScout Design can easily combine edited video with terminology from your playbook or pre-game scouting report. Test players' mental readiness by pairing specific video clips with questions about opponents' tendencies and game strategy.

Use Quik Scout Design to create Interactive Pre-Game Scouting Questions each player must respond to.

Once the guestions have been created coaches can upload the file to a secure web site and provide players with a link where the file can be downloaded at home. Files can also stored on flash drives or CDs.

As athletes review each play, the questions crafted by the coaching staff using their own terminology appear next to each video clip. Prior to moving to the next question, players are required to answer questions about their responsibilities related to a game situation

QuikScout Player can be loaded onto each player's personal computer
