Using QuikScout Football and Notebook Express coaches and players can exchange and verify each player's understanding of scouting report and playbook information on-line...

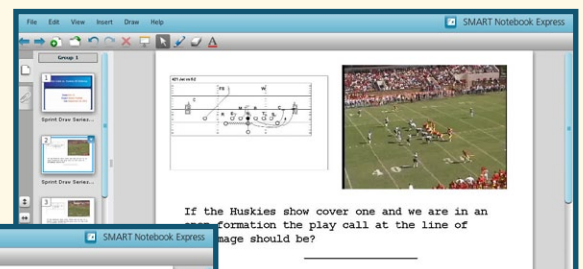

Quik Scout Football, the QST Sports Network, and SMART's Notebook Express provide coaches and players with the software tools necessary to edit video, create multimedia scouting reports and exchange information. This combination of scouting, web and instructional technology from SMART and Quik Scout will help athletes learn and retain

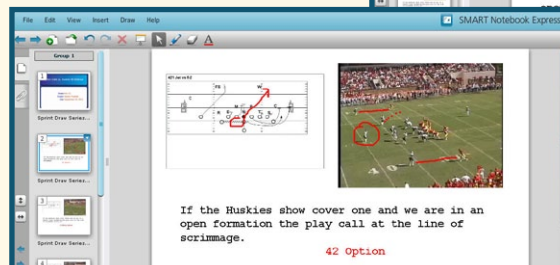

information. QuikScout Football allows coaches and players to take advantage of SMART's award winning Notebook software by creating and uploading scouting reports and video playbooks to custom QST Sports Network team websites. From these websites, players can access scouting reports and playbooks from their personal computers.

What is SMART Notebook Express?

Notebook Express is a free web application that enables players and coaches everywhere to open, interact with, and share SMART Notebook files.

How does SMART Notebook Express work with QuikScout Football and the QST Sports Network?

Once a coach creates a QuikScout Football report or playbook, they save it as a SMART Notebook file and upload it to the team's QST Sports Website. Players and coaches can then log on to the website, review reports on-line, or download the reports and open them on their computer with SMART's free Notebook Express software.

Sharing Information Using SMART Notebook Express

Using Notebook Express, players and coaches can make digital annotations to play graphics, text, or video, and then upload these notes to the team website to be shared with coaches and or members of the team.

Interactive Whiteboard Presentations

The same scouting reports can be reviewed on SMART Boards during team meetings. Coaches can take full advantage of pen, touch, and resizing features while making their presentations.

Presentation Praise

Bruce Cobleigh, Harrison High School coach and clinic speaker, had this to say...

"I could never create playbooks like this before. I would have to wait until the end of a meeting to show my video clips. With QuikScout Video Playbooks I can present everything in its proper sequence and by including video clips with the playbook's text and graphics."
